

Shiny Complexion

A salicylic acid toner (applied to clean skin before moisturizer and sunscreen) will help control oil. But limit your use to three times a week, so you don't dry out your skin.

Farmacy Deep Sweep 2% BHA Pore Cleaning Toner, \$28;

Streaky Self-Tanner

The best way to erase splotches? Try a product with glycolic acid, which helps break down sunless tanners by exfoliating the skin. This mousse is a no-mess application.

Ciara soaks up the sun on July 1.

Summer Beauty Issues, Solved!

DERMATOLOGIST DR. SHEREENE IDRISSE SHARES EASY FIXES FOR ANNOYING HOT-WEATHER PROBLEMS

Discolored Underarms

When the delicate skin here gets irritated, it can react like your face and become hyper-pigmented. An antiperspirant like this one with nourishing vitamin B3 can help.

Dove Even Tone Antiperspirant, \$6;

target.com

Mist on your chest, lower back and behind your knees

Excessive Sweating

Upgrade to a clinical-strength spray antiperspirant. These alcohol-free formulas go on dry and can be used beyond your underarm area.

Degree Advanced Protection Dry Spray, \$6;

walmart.com

Ingrown Hairs

Slough the area for a few days after waxing or shaving to remove dead cells and let hairs poke through the surface of the skin. These little mitts make it so easy!

Fur Ingrown Eliminator, \$18; furyou.com

Chafing

This easy glide-on forms an invisible protective barrier to prevent rubbing anywhere you need it. Good for everyday use and even during workouts.

Body Glide For Her Anti Chafe & Moisturizing Balm, \$8;

bodyglide.com

Apply up to three times a day

Insect Bites

Try not to scratch (we know, easier said than done). Instead, hold an ice cube wrapped in a paper towel on the spot to ease swelling, then dab on a hydrocortisone cream for the itch.

Amazon Basic Care Hydrocortisone 1% Anti-Itch Cream, \$6.50; amazon.com

Sunburn

First take a cold shower to cool down your skin. Next, reach for tried-and-true aloe gel to soothe and hydrate. If the inflammation is severe, take an oral anti-histamine too.
